### Local Authority Areas

In Tables in which figures are shown for Local Authority Areas, incorporated cities and towns, except Brisbane, are included in contiguous shires as shown below. For those Local Authority Areas which are partly in the Brisbane Statistical Division and partly in the Moreton Statistical Division, figures are shown separately for each portion. The portion of the Local Authority Area in the Brisbane Statistical Division is marked B, and that in the Moreton Statistical Division marked M.

### Coverage of Statistics

The particulars given in Divisions 2 to 5 of this Part are confined mainly to operations on rural holdings of one acre or more used for commercial production of livestock and/or crops. Commercial poultry farming is included, however, even though the holding may be less than the stipulated one acre. Livestock kept on reserves etc. by owners who occupy no holding are also included. Particulars relating to beekeeping include all beekeepers with five or more hives irrespective of whether they are occupiers of rural holdings or not.

### Period Covered

Data relating to areas sown and production are in general for crops harvested during twelve months ended 31 March. Owing to seasonal differences, however, some variations have been made to this general rule. The actual period covered by the 1967-68 figures is shown for each crop in Table 18 on page 21.
